☐ Continuation Sheet Attached**Brief Description of Arguments to be Presented:**

References do not disclose, and would not have rendered obvious at least the pH recited in claims 19, 22, 29 and 30. U.S. 4,769,073 does not disclose a pH for its final abrasive, and it is erroneous for the Examiner to assert that the pH of the preparation solution may be imparted to the final product.

An interview was conducted on the above-identified application on _____

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of substance of this interview (37 CFR 1.133(b)) as soon as possible.
